### Original Manuals - Forgotten Weapons

The web site devoted to the homemade gun and techniques of improvised firearm manufacture. In these days of increasingly oppressive anti-gun policies and almost police state politics affecting many other areas of our lives, it has never been more important for the aware citizen to know how a working firearm is constructed.

In firearms terminology, an action is the functional mechanism of a breech-loading weapon that handles (loads, locks, fires, extracts and ejects) the ammunition, or the method by which that mechanism works. Actions are technically not present on muzzleloaders, as all those are single-shot weapons with a closed off breech and the ammunition is manually loaded through the muzzle.
