Curriculum: FOSS Balance and Motion Teacher: Lorena Reyes Estimated time: 60 minutes 1. Overview: Balance and motion is an important unit of investigation because students can start exploring and learning more about the natural world. Balance is not foreign to second graders because they “love to engage in balance activities.”

Fossweb: Balance and Motion Teacher Video

The motion of an object is determined by the sum of the forces (pushes and pulls) acting on it. You need a force to start moving, change the direction of, or stop an object. Force creates change in motion. A force can be seen or unseen. Objects and systems that turn on a central axis exhibit rotational motion. Balance is a result of equal effort.

For Teachers - FOSS

The eGuide is the complete FOSS Investigations Guide component of the Teacher Toolkit in an electronic web-based format, allowing access from any Internet-enabled computer. The Investigation eGuide is available as a PDF or as an interactive platform for FOSS Next Generation.

Bing: Foss Balance And Motion Teacher

FOSS Third Edition Balance and Motion. We live in a dynamic world where everything is in motion in different ways, as objects, move from one place to another, vibrate, or rotate around and around. Still other things are stationary, stable for a time, balanced on a thin line between stop and go. These are the global phenomena that students experience in the Balance and Motion Module.

Foss Balance And Motion Teacher

Study balance and motion with your class. This lesson is designed to help students understand the physics behind balance and motion. Students will learn what balance is. They will explore center of gravity and counterbalance, to understand how balance is maintained. In the lesson, students also
