is the universe, and if the whole of nature is alive, is death not just a transmutation of matter, thereby affirming that nothing is dead or inanimate?”

The Transhumanist Reader: Classical and Contemporary ...

In the past, it was possible to approach transhumanism as primarily involving philosophical discussion and technological speculation. While transhumanist goals such as radical life extension, uploading, and cognitive, sensory, and physical enhancement were speculative they were also considered scientifically feasible, even if the technologies to achieve those goals appeared remote.

The Transhumanist Reader: Classical and Contemporary ...

The Transhumanist Reader presents the first authoritative and comprehensive survey of the origins and current state of transhumanist thinking regarding technology's impact on the future of humanity. Featuring core writings by seminal thinkers in the speculative possibilities of the posthuman condition, essays address key philosophical arguments for and against human enhancement, explore the inevitability of life extension, and consider possible solutions to the social and ethical ...
